

Artificial Intelligence

Vegliante Amerigo

Prof. Sperduti Alessandro

2026/2027

Index

1. Introduction to AI	1
2. Agents	2
3. Problem Solving	3
4. Informed Search	4
5. Adversarial Search	5
6. Propositional Logic	6
7. First Order Logic	7
8. Uncertainty	8
9. Artificial Neural Networks	9
10. Reinforcement Learning	10
11. Constraint Satisfaction Problems	11
12. Natural Language Processing	12
13. Transformers and LLMs	13
14. Computer Vision	14
15. Multimodal LLMs	15

1. Introduction to AI

2. Agents

3. Problem Solving

4. Informed Search

5. Adversarial Search

6. Propositional Logic

7. First Order Logic

8. Uncertainty

9. Artificial Neural Networks

10. Reinforcement Learning

11. Constraint Satisfaction Problems

12. Natural Language Processing

13. Transformers and LLMs

14. Computer Vision

15. Multimodal LLMs
